MERLOT  
REPORT 2020

# ABOUT THE WINEMAG.CO.ZA TASTING PROGRAMME 2020

Winemag.co.za is set to produce 12 category reports over the course of the year. Each report is based on the outcome of a blind tasting of wines entered within the specific category.

We will announce a Top 10 with the release of each successive report. Producers of these wines will be notified and are able to purchase newly designed Top 10 stickers while producers of the remaining wines may acquire regular rating stickers – consumers are encouraged to look out for these in the retail environment.

The programme culminates in a gala dinner where the individual best wine per category will receive an award and ratings on the 100-point quality scale for all the Top 10 wines will be revealed.

The Best of Category wines will subsequently be shown at tastings in both Johannesburg and London.

## JUDGING PROCEDURES

The judging panel was chaired by me and further consisted of two trusted colleagues, namely Roland Peens and James Pietersen, both of Wine Cellar, Cape Town merchants and cellarers of fine wine. We tasted blind, ratings done according to the 100-point system. Final scores were awarded on the basis of discussion that involved retasting where necessary rather than relying solely on arithmetic averaging.

# KEY FINDINGS

It might be argued that the reason single-variety Merlot is popular with the average punter is precisely the same reason it is sometimes derided by the cognoscenti, namely that it's crucial characteristic is not its flavour but its texture which can be described in one word – smooth. It tends to be noticeably lower in tannins and acidity than Cabernet Sauvignon, and hence provides lots of fruity impact on the palate making for an easy but ultimately shallow drinking experience.

The tasting for the fourth annual Merlot Report convened by Winemag.co.za and sponsored by multinational financial services company Prescient, suggests that the issue is a little more complicated than this. On the one hand, there were many wines which seemed to have been made to maximise the variety's fruity charm and priced to be fast moving in the retail environment. Such wines presented a bit of a mixed bag however with some succeeding because of how plump and juicy they are and others that falling down on account of being excessively sweet, soft and simple.

On the other hand, there is a relatively small sub-group of wines that seem very much intended as fine wines and here we see Merlot in all its glory, the resulting wines being intensely flavoured, luscious and velvety – it would seem that the variety on the right site and in the right hands can reach a very high standard but this is the exception rather than the rule.

As for the stats, there were 52 entries from 45 producers with 22 or 42% of these rating 90-plus on the 100-point quality scale. Of the Top 10, five were from Stellenbosch, two from Durbanville, one each from Constantia and Elgin and one designated as W.O. Western Cape, this being the Boschendal 1685 2017 incorporating fruit from both Elgin and Stellenbosch. Average cellar-door price of the Top 10 was R215 a bottle with Le Bonheur The Manor Meander 2018 being the most affordable at R100 a bottle.
